

Adom

1503 chemin Saint-Jean
Laprairie, QC, J5R 2L8

www.adom-smarthome.com

We design home automation systems for and with our clients. It's a process where the owner/end-user is very implicated. Once the design is done, we take care of the sales of the products and the installation process that takes between a week to a year depending on the type of project (retrofit or new construction). We work with electricians, contractors, architects, designers and home owners associations.

Dalfen Sales Agency
